Geo-Environmental Scientist

Ground Investigations Ireland are recruiting a Geo-Environmental Scientist/Engineer. The successful candidate will work on a broad range of Geo-Environmental projects. The role will focus mainly on environmental projects with scope to provide input into geotechnical focused projects.

The role will be based in our Dublin office with a requirement for field work including overnights on projects throughout the country.

Duties:

- Project management and supervision of geo-environmental site investigations including trial pitting, borehole drilling, geotechnical testing, geo-environmental sampling.
- Collection of soil, water and gas samples.
- Liaising with contractors and laboratories etc.
- Interpreting and presenting laboratory and field data.
- Preparation of factual and interpretive reports.

Required Experience:

- Degree in Geology, Hydrogeology, Environmental Geology, Environmental Science, Environmental Engineering or equivalent - Masters Degree desirable.
- Preferably 2-5 years' experience.
- Waste classification experience (HazWasteOnLine).
- Experience of borehole and trial pit supervision and logging.
- Experience with soil sampling, landfill gas monitoring, groundwater and surface water sampling.
- In situ Geotechnical testing.
- Experience operating and maintaining field monitoring equipment.
- Knowledge of site investigation and assessment methodologies.
- Experience in the interpretation and presentation of analytical data.
- Strong report writing and communication skills.
- Project schedule management.
- Attention to detail.
- Excellent knowledge of Microsoft Office (Word/Excel/PowerPoint/Access).
- Working knowledge of GIS, AutoCAD, borehole logging software and other geo-environmental software preferable.
- Ability to work away on site as required.
- Full Clean Driving Licence essential.
