

JOB TITLE: Hydrogeologist
REPORT TO: Technical Director
LOCATION: Dun Laoghaire, Dublin
JOB TYPE: Permanent

RPS is seeking a suitable candidate for a Hydrogeologist role for our office in Dun Laoghaire, Dublin. The position will be based in Dublin with a mixture of office and field based work, there will also be opportunities for short term trips overseas, primarily to Europe and Africa.

RPS work on a variety of both domestic and international projects. Our Irish projects include environmental impact assessments, water supply, water framework directive related projects, abstraction/discharge permitting and landfill assessments. Our international projects are primarily for mining clients based in Europe and Africa, typically working on water supply, mine dewatering/depressurisation, surface water management, water balance studies and overall site wide water management.

The position will include the following tasks:

- Execute and supervise hydrogeological field investigation programmes
- Collect, compile and present hydrogeological data
- Accurately perform data assessment and analysis applying standard methods
- Communication with clients and sub-contractors
- Assist with the preparation of proposals
- Project management
- Reporting

The candidate's experience should include:

- 1-5 years of experience in Hydrogeology
- BSc in Geology or related Earth Science
- MSc degree in Hydrogeology (strongly desirable)
- Experience in development and management of groundwater and surface water monitoring programmes (desirable)
- Knowledge of numerical groundwater modelling (desirable)
- Technical report writing and presentation
- A full clean driver's licence

The candidate should have:

- A sound technical foundation in hydrogeology and geology
- Good time management skills
- Strong written and verbal communication skills
- Confident and flexible attitude to office-based and field-based work assignments
- Ability to work in teams
- Proficiency in MS Office

If you would like to join a company that focuses on creativity in design and solutions and is passionate about the service it provides, join RPS.
